EDUCATION

Sri Shakthi Institute of Engineering and Technology, Coimbatore

B.Tech Information Technology

CGPA 8.23 | Year: 2027

Bishop Ubagarasamy Matric Hr. Sec. School, Tirupur

HSC

Percentage: 85% | Year: 2023

INTERNSHIP EXPERIENCE

Agentic AI Intern | Innomatics Research Labs

Feb 2026 – May 2026

- Developed Agentic AI workflows using LangGraph and Large Language Models.
- Implemented Retrieval-Augmented Generation (RAG) pipelines with vector databases for context-aware responses.

SOFTWARE SKILLS

Programming Languages: Python, JavaScript, Java, Data Structure & Algorithms

AI/ML & Generative AI: NumPy, Pandas, LangChain, LangGraph, RAG, HuggingFace Transformers, OpenCV

Frameworks: FastAPI, Node.js, Express.js, React.js

Databases: MongoDB, ChromaDB

Tools & Tech: REST APIs, Github, Postman, VS Code

CERTIFICATIONS

- Python Professional Course -Infosys SpringBoard
- Prompt Engineering -DeepLearningAI

PROJECTS

Cursor Movement by Hand Gesture

- A computer vision–based application that enables hands-free control of the mouse cursor using real-time hand gestures captured through a webcam.
- Uses hand landmark detection to track finger movements and maps them to cursor actions such as move, left-click, right-click, double-click, and scroll, and human–computer interaction.
- **Tech Stack:** Python, OpenCV, MediaPipe, PyAutoGUI, NumPy, Webcam (Computer Vision).

RAG-Based Customer Support Assistant | NovaTech Solutions

- Developed a RAG-based customer support assistant capable of retrieving context-aware responses from enterprise knowledge bases using vector search and LLM-powered reasoning.
- Implemented intent-based routing, vector search with embeddings, and Human-in-the-Loop escalation along with a Streamlit chat interface for real-time interaction and diagnostics.
- **Tech Stack:** Python, LangChain, LangGraph, Gemini API, ChromaDB, Streamlit, HuggingFace Embeddings

Interactive 3D Developer Portfolio

- A visually immersive personal portfolio platform created to professionally present my software projects, technical expertise, and development journey using modern 3D web technologies.
- **Tech Stack:** HTML, CSS, JavaScript.

AREA OF INTEREST

- Generative AI and Backend Applications
